<b>5.</b>	<b>CONCLUSION</b>	<b>27-31</b>

## **ACKNOWLEDGEMENT**

The present work is the result of a month long internship done by me under India Vision Foundation in the month of June 2015. To begin with a heartfelt gratitude is expressed to Dr. Kiran Bedi Ma'am who acknowledged my enthusiasm and in fact planted this unique concept for my submission as the reader shall find in its present form. Every effort has been made to prepare this project report with the same conviction as imparted by her. The next quintessential mentor in respect of this project has been the Director of India Vision Foundation Mrs. Monica Dhawan Ma'am, who despite her busy schedule always stood ready to answer any query I might have regarding the project. Like a dedicated editor, she also ensured that I honour all my deadlines regarding the project and thus played a major role in the present submission.

A special thanks to all the members of CVF team, who acted as proactive facilitators to provide the ideal portal for me to observe and exchange lessons with these wonderful children. While Pearly Ma'am ensured that I get uninterrupted time frame with them, it was Leena Ma'am and Ajay Sir who filled in the little details, while Chander Shekhar Sir being a senior counsellor provided the most holistic range of perspectives possible.

Finally my gratitude to the entire team at India Vision Foundation for making me a part of their family and ensuring that the time spent with them in the making of this report becomes a truly amazing experience to remember for a lifetime.
